

Session title	Plastic Planet	
Key Q	Which everyday objects are made from plastic and why is this a problem?	
Session description	Explore different everyday objects made from plastic. What problems does plastic pollution cause and what can we do to help?	
Key Stage suitability	Foundation Stage	
Duration	1 hour	

Curriculum links	Foundation Stage: The world around us ▪ Interdependence: How do living things survive? ▪ Place: What is in my world? ▪ Change over time: How do things change?	
Learning outcomes	Most learners	More able learners
	Recognise that there are many everyday items made from plastic some of which may not be immediately obvious Understand the problems that plastic pollution causes for wetland wildlife and habitats Recognise that plastics take a long time to break down Know some simple things that they can do to help improve the situation	Understand that plastic pollution in wetlands comes from a range of sources Understand that microplastics can be passed through a food chain
Key vocabulary	Pollution	Microplastics Decomposition

Session Outline	Time
Introduction	5 mins
Learners are introduced to the session title and what we will be focussing on in today's session	
Activity 1: What is the issue?	15 mins
Learners investigate different items that create plastic pollution and where these come from	
Activity 2: What problems does this cause?	10 mins
Learners look at the impact this has on wildlife including how microplastics can be passed through a food chain	
Activity 3: How long does the problem last?	15 mins
Learners investigate how long different materials take to decompose and how plastics can remain in the environment for a long time	
Activity 4: What can we do to improve the situation?	10 mins
Learners explore some of the alternatives to plastic and some of the small steps they can take to reduce plastic pollution	
Plenary	5 mins
Learners review what they have learnt and have a chance to ask any questions they may have
